Note: Make Ethical Decisions (MED) has been updated since some people took it as an integrated component of CSI or CI. It's now a separate, stand-alone course and if your pathway shows it's incomplete, you must take the class, even if you've already done the online evaluation.

If your profile says “Not yet certified” or “In Training”, you are missing at least one component. Click on the **i** and see which components are required for a status.
