

SHARING ICE WITH DIFFERENT COHORTS

Preamble

The objective of cohorts is to limit the potential spread of COVID-19 and to facilitate easier contact tracing.

However, with limited access to ice, it may not always be financially feasible or logistically possible to limit ice use to a single cohort at a time.

Sharing of ice with different cohorts is to be avoided as much as possible however, in rare situations where it isn't feasible, it will be permitted but only with the following restrictions in place.

Restrictions

- **Facility restrictions supersede all other restrictions.** Facilities will set restrictions on:
 - number of individuals in the facility
 - number of spectators
 - number of individuals on the ice
 - access to dressing rooms
 - others
- **Members and Participants of Ringette Alberta MUST adhere to facility restrictions.**
- **When permitted by the facility, the following additional restrictions are in effect:**
 - At all times, physical distancing between cohorts including on ice and off ice is mandatory
 - Active Start and U10 Step 1 & U10 Step 2
 - Buffer zone mandatory – See figure 1 on the next page
 - Only one game permitted
 - Practice at the other end of the ice permitted
 - All other divisions / levels
 - Practices only
 - Buffer zone mandatory – See figure 2 on the next page
